

**CONFIDENTIAL**

**Journal - Office of Legislative Counsel  
Friday - 30 March 1962**

10. [redacted] Discussed with Virginia Spellman, assistant to Senator Harrison Williams, correspondence with the Senator's office concerning [redacted], a former Agency employee who terminated for reasons of illness on 21 January 1953. Miss Spellman was somewhat embarrassed that we had even bothered to call on the matter as they had attempted to state as clearly as possible on the transmittal that the Senator only desired "whatever information you deem appropriate so I may respond to her inquiry." Advised Miss Spellman we had no record of any claim having been filed but we are double checking with the Bureau of Employees Compensation to be certain that such was the fact and that since the matter is now nine years old we know of no benefits available to her.

11. [redacted] Discussed with William Connell and Helen Young, in the office of Senator Hubert H. Humphrey, correspondence forwarded to Mr. McCone concerning correspondence received by the Senator from [redacted] who was described by the Senator as "the distinguished [redacted] philosopher and statesman." It was indicated that the Senator's office has been in correspondence with [redacted] over a number of years but the subject matter has been rather peripheral to the Senator's committee assignments and interests. The responses by the Senator to [redacted] have been rather casual.

13. [redacted] After General Carter's review of the transcript of the open hearing on his confirmation, transmitted several minor corrections to Mr. Atkinson, of the Senate Armed Services Committee staff.
